- Steven A. Murphy DVM**  
**Topic:** Camelid Emergencies on the Farm

---

The Florida Alpaca and Llama Association (FALA), in conjunction with the University of Florida, are proud to present another Camelid Health Seminar at the University of Florida College of Veterinary Medicine. This seminar is for owners, farm managers, veterinarians, veterinarian technicians and veterinary students. CE credits are available for veterinarians. Our featured speaker, Dr. David Pugh, is a well known camelid authority and a very informative and entertaining speaker. Dr. Amanda House is a camelid and equine veterinarian at UF. Dr. Steven Murphy is a local veterinarian who has a down home approach to veterinary

treatment. This seminar promises to be one you would not want to miss. The final hour will be a question and answer panel with all three speakers.

Pre-registration is necessary, as space is limited. Our last seminar sold out, so we suggest you register early. The registration deadline is July 22, 2013, and payment is required with a completed registration form that is available on this website. Due to having to provide the proper amount of materials and food, and the space limitations, new registrations will not be accepted on the day of the seminar.

Farm and business sponsorships are available in two ways:

\$50.00, the Basic Sponsorship Package includes:

- An ad in the notebook on the Sponsorship Page at the front of the notebook.
- Listed as a sponsor on a poster at the entrance of the seminar
- Advertisement on a slide show that will be shown during breaks and lunch
- Recognized as a sponsor on your name badge

\$100.00, the Business Sponsorship Package includes:

- All the basic sponsorship benefits
- A display table for the exhibition of items and distribution of information
- A full page ad in the notebook
- Limited number available

Any questions, feel free to contact Bruce or Kathi Volling at [vollingvalley@aol.com](mailto:vollingvalley@aol.com) or call (352)804-8900 or (352)361-3670. Keep checking this website for updates. We hope to see you there!

## Our Speakers

**D.G. Pugh, DVM, MS, Dipl ACT, ACVN, & ACVM**

David Gartrell Pugh earned both DVM and MS (Nutritional Physiology) degrees from the University of Georgia in 1981. He received post-DVM training at Virginia Tech (Clinical Nutrition) and Texas A & M University (Theriogenology). He is a Diplomate of the American College of Theriogenology (1986), the American College of Veterinary Nutrition (1992), and the American College of Veterinary Microbiology (Parasitology-Charter 2012).

Pugh has held faculty positions at the University of Georgia and Auburn University, owned a large animal practice in Georgia, has been a consulting veterinarian for Fort Dodge Animal Health and Pfizer Animal Health, and is a project veterinarian for the AUESPP. In 1990 Pugh started the Camelid Research and Teaching Program at Auburn University.

During his academic career he taught theriogenology, veterinary nutrition, and clinical parasitology. He is the author of >600 publications, >100 book chapters, 2 textbooks (Sheep and Goat Medicine, Sheep and Goat Medicine, 2<sup>nd</sup> ed), and a co-author of a publication of the NRC (NRC for Sheep, Goats, Camelids and Cervids).

Pugh has received five university and four national awards for teaching, and was the 2006 recipient of the AM Mills Award for contributions to Veterinary Medicine. He has served on various committees for the American Association of Small Ruminant Practitioners, the Society for Theriogenology, the College of Theriogenology, the American College of Veterinary Nutrition, and the National Research Council, Nutrient Requirement Committee and the American Academy of Veterinary Parasitologists.

He is a sheep, llama and donkey/mule owner, part-time motorcycle/trike builder and rider, a full-time husband to Jayne Pugh and the father of two daughters, a son, and three grandchildren.

**Amanda Martabano House, DVM, DACVIM**

**Clinical Assistant Professor; Large Animal Clinical Sciences**

**University of Florida College of Veterinary Medicine**

**Gainesville, FL 32610**

Dr. Amanda House completed her BS in Animal Science from Cornell University in 1997. After graduating from Tufts University School of Veterinary Medicine in 2001, Dr. House completed an internship and large animal internal medicine residency at the University of Georgia's Veterinary Teaching Hospital. She worked for two years at the University of Georgia as a Clinical Instructor in Large Animal Medicine and as the University of Georgia's Camelid Liaison. Dr. House joined the faculty at UF as a Clinical Assistant Professor in the department of Large Animal Clinical Sciences in July 2007. Her professional interests include neonatology, infectious disease, and camelid medicine. Dr. House was a speaker at the 2009 International Camelid Health Conference in Corvallis, Oregon on camelid anemia and blood transfusions.

**Steven Murphy, DVM**

Dr. Steve received a BS in Animal Sciences (H) from University of Maryland-College Park in 1974, and his DVM from University of Georgia in 1978. He has been in private practice in Ocala/ Marion County ever since, dealing predominantly with equine reproduction/ pediatrics and lameness. However, he has also treated many exotic species, ranging from elands, zebra, antelope, giraffe, and camel herds, to an occasional tiger, from large flocks of ostrich and emu to individual birds. And, of course, several to many alpaca and llama. But not pigs, domestic or potbellied, nor alligators.
